preventing disease across the world by strengthening the body's immune system

## HEART ALGAE Heart and Metabolic Antioxidant Support

60 Capsules per Bottle / 225 mg

Antioxidants play a very important role in the maintenance of your health. Enriching Gifts International's Red Heart Algae is 500 to 1,000 times more potent than Vitamin C, and 100 times more effective than Vitamin E. It is one of the most powerful antioxidants found in nature. It also crosses your Blood-Retinal and Blood-Brain Barrier. (Antioxidants have been proven to help deter the collection of plaque on arterial walls along with helping to slow or even prevent the development of arterial blockages.) results are achieved because antioxidants limit and severely reduce the oxidation or solidification of substances that allow them to accumulate in the body. Enriching Gifts Heart Algae is produced in bio dome photo reactors in a 100% controlled environment which creates an extremely clean, pure, and highly concentrated product which is easily absorbed and digested.

**2 capsules per day - 1 morning and 1 evening with meals**

### Proprietary Blend:

Red Algae  
GRF8C77(TM)

### Key Benefits:

Red Algae is the highest antioxidant known to science that's been researched and developed within the last decade

Heart Algae (antioxidants) neutralize free radicals that cause oxidative damage to the body

Significantly reduces the amount of DNA damage to your cells

Helps prevent and reduce oxidation and formation of plaque and uric acid that can potentially build up in the blood stream

May significantly reduce your risk of developing Heart Disease and many forms of cancer

Antioxidants help reduce the risk of acquiring arterial sclerosis (hardening of the arteries)

Antioxidants reduce oxidized floating immune complexes (FIC's) within the blood stream

Heart Algae helps to protect brain cells from oxidative damage because of its unique ability to cross the blood brain barrier.
