preventing disease across the world by strengthening the body's immune system

PLANT ENZYMES with GR8CF-77™ DIGESTIVE SUPPORT

90 Capsules per Bottle / 400 mg

270 Capsules per Bottle / 400 mg

Our diets are severely enzyme deficient. Do you ever eat food that has been cooked, baked, boiled, micro waved, or in any way heated or processed? Do you drink carbonated beverages? If you do, you are prematurely depleting your body of enzymes - its very life force. By taking Enriching Gifts Enzymes you accomplish many things. You increase your immune system function by reducing toxicity in the blood. You help increase your lifespan and your quality of life by preventing the premature wasting of Enzymes through the digestive process and you increase the rate of digestion and bioavailability which gives you better nutritional absorption. When your enzyme supply runs out, you die and there is not another chance to replenish them. Make sure you conserve and replenish your enzyme supply every day with Enriching Gifts proprietary blend of Plant Enzymes.

Recommended Usage: Take 1-3 capsules 2 minutes before each meal. 3 capsules are recommended before meals containing proteins from animals. (Steak, Eggs, Turkey, Ham, etc.)

Contains the following Standardized Ingredients:

Protease-digests proteins 75,000 HUT
Amylase-digests carbohydrates 8000 DU
Cellulase-digests fiber 250 CA
Lipase-digests fat 500 LU
Sucrase-digests sugar 100 FCC
Maltase-digests starches 250 DU
Lactase-digests lactose in dairy products 500 FCC
Galactosidase-breaks down gas 15 MG
Bromelain- (Protease-Anti inflammatory) 20,000 FCC
Proprietary blend of 77 ionic-form trace minerals 15 MG

Key Benefits:

COMBINATION of 9 plant-based enzymes (enzyme activating) form minerals.

SUPPLIES complete digestive enzyme complexes so that all foods are broken down to their most useable form

REDUCES the burden of digestion off the body, allowing other functions to proceed unimpaired

ASSURES that nutrients from food or nutritional supplements are absorbed by the body through increased assimilation.

INCLUDES a delivery system that ensures enzyme activity in all stages of digestion and body PH ranges.

SUPPORTS proper digestion which enhances health, increases energy levels and promotes longevity.

REDUCES time between bowel eliminations thereby reducing toxicity buildup.

Enzymes, the literal "life force" of every bodily function, are essential for all areas of health. Without these powerful biochemical catalysts, the body cannot function optimally and life itself cannot continue.

The enzymes contained naturally in our foods that have the ability to aid digestion are destroyed by temperatures exceeding 118 degrees. They are also destroyed through commercial growing, cooking and processing methods. Carbonated drinks, strenuous exercise, environmental factors and stress further deplete our enzyme stores and ability to make more enzymes for bodily functions and cellular reproduction.

Plant Enzymes replenish vital digestive enzymes that are destroyed in our processed diets. By supplementing digestive plant enzymes every time we eat, our metabolic enzymes can be spared from the digestive process and used for other life-generating functions.

Enzymes are vital to the health of all individuals and animals that are consuming cooked and processed foods. Plant Enzymes with GR8CF-77™ represent the cutting edge in enzyme formulation and are the result of over 17 years of research.
